SKE Bharat | Specification sheet

Dry Type Transformer

Dry Type Transformer | SKU SKE-TRF-003

Air-cooled dry-type transformers with no oil, for indoor locations where fire safety matters. Also searched as: air cooled transformer, dry type distribution transformer, oil free transformer, dry transformer, dry type power transformer

Specification

Transformer Type	Dry type
Cooling	AN / AF
Standard	IEC 60076-11, IS 11171
Voltage Class	Up to 33 kV class
Vector Group	Dyn11 (typical)
Tap Changing	Off-circuit taps

Typical applications

- Buildings, malls and hospitals
- Data centres and commercial sites
- Industrial indoor substations

Key features

- No oil, reduced fire risk
- Low maintenance
- Temperature monitoring options

To get a quotation, send us

- kVA / MVA rating and phases
- Primary / secondary voltage and frequency
- Vector group, impedance and tap range
- Cooling and installation (indoor / outdoor, altitude, ambient)
- Applicable standard and test requirements
