Gear Pumps

Gear Pumps | SKU SKE-PMP-012

Positive-displacement gear pumps that deliver a steady flow of viscous liquids such as oils and lubricants. Also searched as: rotary gear pump, external gear pump, internal gear pump, oil transfer gear pump, lubricating oil gear pump, positive displacement gear pump

Specification

Pump Type	Positive displacement, gear
Standard	To specification
Typical Service	Oils, lubricants, viscous liquids
Orientation	Horizontal
Drive	Electric motor (coupled or monoblock)

Typical applications

- Lubrication systems
- Oil and fuel transfer
- Viscous-liquid dosing

Key features

- Flow is steady and nearly independent of pressure
- Self-priming
- Relief-valve protected options

To get a quotation, send us

- Flow rate and total head (or pressure)
- Fluid, temperature and solids content
- Suction conditions (NPSH available, flooded / lift)
- Motor / drive preference and supply voltage
- Materials of construction and any approvals required
