SKE Bharat | Specification sheet

High Voltage Motor

High Voltage Motor | SKU SKE-MOT-008

High-voltage AC induction motors for large, continuous-duty industrial drives such as fans, pumps, compressors and mills. Also searched as: HT motor, medium voltage motor, 6.6 kV motor, 11 kV induction motor, 3.3 kV motor, high tension motor

Specification

Motor Type	AC induction (HV)
Standard	IEC 60034
Enclosure / Protection	IP23 / IP55 (to specification)
Mounting	Foot / flange / vertical (to specification)
Duty	S1 continuous
Voltage Class	HV: 3.3 kV / 6.6 kV / 11 kV
Rotor	Squirrel cage or slip-ring

Typical applications

- Boiler and ID/FD fans
- Large pumps and compressors
- Crushers, mills and conveyors

Key features

- Suitable for direct-on-line, soft-starter or VFD operation
- Insulation system and cooling selected for the site ambient
- Built to your voltage, rating and speed

To get a quotation, send us

- Rated power (kW) and speed / poles
- Supply voltage, frequency and starting method (DOL / star-delta / soft starter / VFD)
- Mounting arrangement, frame and shaft details
- Enclosure, ambient temperature and hazardous-area classification
- Duty cycle (continuous / intermittent) and load type
