Horizontal Axially Split Casing (UP)

Horizontal Axially Split Casing (UP) | SKU SKE-PMP-014

Axially split-casing pumps of the UP series for large flows, with easy access to the rotating parts. Also searched as: UP split casing pump, double suction split case pump, horizontal split case centrifugal pump, axially split double suction pump, split casing water transfer pump

Specification

Pump Type	Axially split casing, double suction
Standard	ISO 5199 (typical)
Typical Service	Large-volume water transfer
Orientation	Horizontal
Drive	Electric motor (coupled or monoblock)

Typical applications

- Water works and pumping stations
- Power-plant cooling water
- Large industrial circuits

Key features

- Maintenance without disturbing piping
- Balanced double-suction hydraulics
- High efficiency at large flows

To get a quotation, send us

- Flow rate and total head (or pressure)
- Fluid, temperature and solids content
- Suction conditions (NPSH available, flooded / lift)
- Motor / drive preference and supply voltage
- Materials of construction and any approvals required
