SKE Bharat | Specification sheet

Proximity, Photoelectric & Limit Switches

Proximity, Photoelectric & Limit Switches | SKU SKE-AUT-007

Sensors that detect presence, position and limits for machine and conveyor automation. Also searched as: proximity sensor, inductive proximity switch, photoelectric sensor, limit switch, PNP NPN sensor, capacitive proximity sensor

Specification

Product Type	Sensor / limit switch
Standard	IEC 60947-5-2 (proximity), IEC 60947-5-1 (limit switches)
Selection Basis	Sensing type and range, output (PNP / NPN / relay), supply, housing and thread size, IP rating
Typical Use	Presence and position detection

Typical applications

- Conveyors and packaging machines
- Assembly lines
- Position limits on gates and hoists

Key features

- Inductive, capacitive and optical types
- Cable or connector output
- Shielded and unshielded versions

To get a quotation, send us

- Rating (current / voltage / capacity) and quantity
- Standard and approvals required
- Application and installation environment
- Preferred make, if any (we confirm what we can supply)
- Datasheet or drawing reference, if you have one
