Resin Cast Transformer

Resin Cast Transformer | SKU SKE-TRF-008

Cast-resin dry transformers with windings encapsulated in epoxy resin for moist, dusty or fire-sensitive locations. Also searched as: cast resin transformer, cast resin dry type transformer, epoxy resin transformer, resin encapsulated transformer

Specification

Transformer Type	Cast resin, dry
Cooling	AN / AF
Standard	IEC 60076-11, IS 11171
Voltage Class	Up to 33 kV class
Vector Group	Dyn11 (typical)
Tap Changing	Off-circuit taps

Typical applications

- Metro, hospitals and high-rise buildings
- Wind turbines and solar plants
- Humid or polluted environments

Key features

- Fire-retardant, self-extinguishing
- Resistant to moisture and dust
- Low partial-discharge design

To get a quotation, send us

- kVA / MVA rating and phases
- Primary / secondary voltage and frequency
- Vector group, impedance and tap range
- Cooling and installation (indoor / outdoor, altitude, ambient)
- Applicable standard and test requirements
