Synchronizing Panel

Synchronizing Panel | SKU SKE-SWG-021

Panels that match voltage, frequency and phase so generators or sources can be paralleled safely. Also searched as: synchronising panel, DG synchronizing panel, generator synchronization panel, sync panel, generator paralleling panel

Specification

Panel Type	Synchronising panel
Standard	IEC 61439-1/-2
Voltage Class	LT, 415 V (HT on request)
Construction	Sheet-steel, floor mounted
Protection Degree	IP42 - IP54
Typical Use	Generator and source paralleling

Typical applications

- Multi-generator sites
- Captive power plants
- Grid-parallel operation

Key features

- Auto / manual synchronising
- Load sharing and reverse-power protection
- Synchroscope and lamps

To get a quotation, send us

- Single-line diagram and incomer / feeder schedule
- System voltage, fault level (kA) and busbar rating
- Switching devices and make preference
- Indoor / outdoor, IP degree and ambient
- Metering, protection and communication requirements
