Vertical Turbine Pump (VT/BHR)

Vertical Turbine Pump (VT/BHR) | SKU SKE-PMP-025

Vertical turbine pumps for lifting water from wells, sumps and tanks, with the bowl assembly submerged. Also searched as: vertical turbine pump, VT pump, deep well turbine pump, vertical turbine fire pump, vertical turbine pump and motor

Specification

Pump Type	Vertical turbine
Standard	IS 1710 (vertical turbine pumps)
Typical Service	Deep wells, sumps, intake structures
Orientation	Vertical
Drive	Vertical hollow- or solid-shaft motor

Typical applications

- Raw-water intakes
- Deep-well and borewell lifting
- Large cooling-water circuits

Key features

- High head from multiple stages
- Open-line or enclosed-shaft options
- Suited to large capacities

To get a quotation, send us

- Flow rate and total head (or pressure)
- Fluid, temperature and solids content
- Suction conditions (NPSH available, flooded / lift)
- Motor / drive preference and supply voltage
- Materials of construction and any approvals required
